IT STARTS WITH A SKETCH...

We are very excited to present our latest creations, including a winter skating scene with a light up tree, and festive birthday cakes. This page shows some of the sketches we made along the way. Hope you enjoy the catalog!

FRESHCUT STUDIO

We're a team of creatives - artists, designers, illustrators, and paper magicians - working out of a historic mill building in New England. Together, we blend art, illustration, and paper engineering to craft products that inspire and connect people across the country.

OUR MISSION

We are dedicated to creating products that grow more beautiful, fun, and engaging each year—items that make your store stand out, drive strong sales, and build lasting customer loyalty.

We're equally committed to sustainability: our products are recyclable, plastic-free whenever possible, and kind to the planet. Through our partnership with Veritree, we've planted over four million trees, and we're just getting started.

Golden Harvest

Gather with friends and family this season around our charming harvest-themed pop-up basket. Rustic and bountiful, this decorative display makes a perfect gift and adds a cozy touch to any space.
